

RULES FOR SHOWING

Edition 17

Revised July 2016

EFFECTIVE 1 September 2016

PREAMBLE

The Rules for Showing are produced specifically for use at CN or lower Status Events and have been drawn up in the broadest possible terms so as to allow Organising Committees affiliated to SAEF, and SASA itself, as much freedom as possible in the management of their Events and in the preparation of their schedules.

It is not possible to provide for every conceivable eventuality in these rules. If there is no rule to deal specifically with a particular circumstance, or if the nearest interpretation of the pertinent rule would result in an obvious injustice, it is the duty of those responsible to make a decision based on common-sense and fair play, using all technical assistance available including official video-recordings (an official video recording is considered to be a recording made by a TV network or video company hired by the organising committee) thus reflecting, as closely as possible, the intention of these rules and of the General Regulations.

These rules have to be read in conjunction with the SAEF General, Veterinary and Anti-Doping Regulations which are uniform for all disciplines falling under SAEF jurisdiction.

Although the FEI does not recognise the Showing Discipline as such, the General Regulations and rules of the FEI, unless otherwise stated in these rules, still apply and in consequence, these rules are supplementary to those of the FEI in this respect.

In all equestrian sports the interests of the horse must be considered paramount.

Part One Theory.

Candidates will write a theory exam and will be examined on the following :

General Rules and Regulations (as per Showing Rule Book).

Knowledge about SANESA Showing classes

On passing part one, candidates will then do part two- the practical exam:

Part Two Practical.

Horses/ Ponies will be stood up and candidates will be required to comment on all of the following –

Conformation

Movement

Blemishes, unsoundness

Type

Age

Breed

Two horses will be ridden – One as a hack and the other as a hunter.

Section on lead rein and first ponies for comment.

Candidates will be required to mark and place both working riding and working hunter horses / ponies.

Candidates are to wear full riding gear if they wish to become a riding judge or suitable dress that a non riding judge would wear when judging.

Second theory exam will consist of the following-

Rules /Regulations.

In depth knowledge of unsoundness, blemishes, age ,conformation, movement.

Broad knowledge of bits.

Problems associated with judging and how to deal with them.

On passing the second theory exam, you will then be placed on the Learner Judges Panel. You remain on this panel for a minimum of one year. During this period it is your responsibility to present yourself at various shows to learner judge under a senior judge. This must be cleared with the Regional/ Provincial Chairman. A record of where and when you judged must be kept by yourself and presented at the end of your year. At the end of one year, the Provincial Showing committee will decide on whether the learner judge is ready to be promoted to the Junior Judges panel, or if they feel the Learner judge still needs more time on the Learner Panel. **Judging of SANESA Performance and Working classes up to Level 5 and Level 7 (but only if prior permission has been obtained), will also be taken into consideration during the promotion process.** The SASA Judges Committee needs to be informed of this promotion.

Junior Judges Panel :

Once on the junior panel, the Judge may only judge, at certain shows, within the Province where they reside. A Judge will remain on this panel for a minimum of at least one year or more. **Judging of SANESA Showing classes will also be taken into consideration during the promotion**

process. It is up to the Provincial Showing Committee to decide on when the Judge is ready for promotion to the Provincial Panel. The majority of the Showing Committee within the Province must be in agreement on the promotion. Once this has been established, the Judge in question is then promoted to the Provincial Panel. The SASA Committee needs to be notified of this promotion.

Provincial Judges Panel :

Once a judge has been promoted to the Provincial Panel, they will remain on this panel for a minimum of at least two years or more. They may judge out of province, again only at certain shows, however on receiving any invitation to do so, must first inform the Showing Chairman , in their province. The Provincial Chairman must then clear this with the SASA Chairman, who will then approve/disapprove the invitation. No Judge may accept an invitation without following the former procedure.

In order to be promoted to the National panel, a Judge must have judged out of province on more than one occasion.

Once the Provincial Showing Committee feel a candidate is ready for promotion to the National Panel they will inform the SASA Chairman and the Judge, who in turn needs to arrange the following:

1. Letter requesting promotion to the National Panel from the Provincial Chairman.
2. Detailed report on what shows the Judge has judged at, as well as what classes, age groups in at least the last two years (As per official log book).
3. The candidate Judge needs 3 letters of recommendation from 3 different Judges who are either on the National or International panel. They will be required to ask these judges for the letters, but may not see them. These letters must be sent to the SASA Chairman, along with the other information required.
4. The SASA Chairman will forward this to the National Judges Selection Committee who will have the final say on the promotion.

National Judges Panel :

Once promoted to the National Panel, a judge will remain on this panel for at least 2 years or more. The judge may judge anywhere within the RSA , as well as overseas. On receiving any invitation to judge outside of their province or Country, the same procedures as listed under the Provincial Panel need to be followed in order to be able to accept the invitation. Where a Judge is invited to judge abroad, the SASA Chairman will inform the SAEF or the Secretary General at the SAEF Office. Only with approval from SAEF may the judge accept the invitation to judge abroad.

In order to be promoted to the International Panel, the same procedures as listed under the provincial panel, need to followed.

International Judges Panel :

A Judge on the International Panel may judge anywhere within the RSA as well as abroad. On receiving any invitation to judge, the same procedures as listed under the Provincial Panel and National Panel will apply, before any invitation may be accepted.

Open classes within the same category.

This only applies when 5 nominations were received in the original Team nomination form.

A Provincial Body may enter a team with only four rider/horse combinations. The team will receive the lowest points obtainable in the class in which they have no representation. Where only 4 horse/rider combinations were nominated, no horse or rider may ride more than once in the Team Event.

In the event of a team tie, the team that received the most first places shall be placed higher than the other team. In the event of a further tie, then the most second places will be counted and so on down the places.

SECTION 62

SASA RIDING HORSE CLASSES

SASA Riding Horse Classes provide an alternative showing opportunity for all breeds of horses and ponies. These classes offer competitors an environment in which to gain experience in a show atmosphere before entering affiliated classes. It is an ideal stepping stone for novice riders and horses. Breed and Type relevant dress and tack is allowed as long as protective headgear is worn.

SASA Riding Horse Classes usually consist of the following Classes:

BEST TURNED OUT

Competitors enter arena at a walk and circle. The Judge will call competitors into line and instead of an individual show; competitors will be called forward individually to be inspected by the judge.

BEST WALK

This class is judged on the horses' ability to stride out and move freely from its shoulder. The horse must have a natural ground covering walk that is regular, free and unconstrained.

BEST TROT

The trot must be balanced, cadenced, free-moving, show elegant carriage and with easy rhythm and impulsion from the hindquarters .The trot should show equality of movement both from the front and rear end .The trot should never look forced, laboured or artificial.

BEST CANTER

The horse is judged on its ability to engage, collect and stay flexed. The canter should be business-like, not too slow, and not a full-blown gallop. The canter must be united, light, have cadence and impulsion. The canter should never look hurried, with each stride long and covering as much ground as possible.

PLEASURE PONY

The pony should appear to be a pleasure to ride, be well schooled, balanced and obedient showing a calm temperament, At the judge's discretion , the competitors can be asked to ride with one hand. Conformation should only be taken into account in the event of equality.

PLEASURE HORSE

As above, but only open to horses.

TOWN HACK

The town hack must be beautiful, have good conformation and paces. Manners are particularly important in the judging of hacks. Town hacks must have quality, animation, presence and balance.

BEST THREE GAITED HORSE

These may be split into specific Breeds – Best Three Gaited Thoroughbred, Non Thoroughbred, Warmblood, Welsh Pony or any other Specific Breed.

The horse is judged on the quality of its paces at a walk, trot and canter.

RIDING SCHOOL HORSE/PONY

A pony/horse suitable for use in a riding school. Temperament and schooling to take precedence.

FARM HORSE/HANDY HORSE

A test set by the relevant judge, will be performed. Horses will be required to negotiate a course of eight tests that should be of a practical nature. The course should be designed to demonstrate that the horse is obedient, well schooled, able to jump, extend their paces, stand still and show a steady temperament. Each obstacle is marked individually and scores are tallied up afterwards.

PERFORMANCE WORKING HUNTER

A basic Working Hunter Course with no combinations, bounces or related distances will be required. A gallop should be shown on completion of the round.

Recommended heights : Ponies – 50cm, Horses – 60cm.

BEST RIDER

The focus of this class is to determine how well a rider sits and controls their mount.

The judge will focus mainly on leg position, seat, upper body position and posture, hand position and overall horsemanship. The correct trot diagonal and canter lead are essential.

Accuracy of movements ridden will be taken into consideration.

Best rider classes may be required to do a short test.

These classes may be split into Best Child rider, Best Lady rider and Best Gentleman rider.

JUDGING OF SASA RIDING HORSE CLASSES

Class will be judged on manners, suitability, and performance of horse.

In the event of equality, the Conformation of the horse may be considered.

Generally competitors enter at a trot. (In the Three Gaited Classes normally on the left rein) . They may be asked to extend the trot. They then walk and at the judges command, canter. On command, competitors come back to a walk, turn around and trot on. Walk again and canter on. Competitors then come in and line up while judges do a quick inspection of tack and condition of horse. Conformation is not judged as such. Competitors are then placed by the judge and the announcer calls the winners in from lowest to highest.

APPENDIX "C"

THE HI-LOW SCORING SYSTEM

The Hi-Low System provides a method of scoring judge's cards in a Three-Judge Panel where each judge has equal power of one full vote to place each of the competitors.

Tabulation is simple and can be completed in about 45 seconds. All ties can be easily broken.

Results are computed by at least a two-thirds majority of the votes in favour of each place awarded in a class.

The System is called "Hi-Low" because the highest and lowest votes are cancelled out, and the middle vote only is recorded. Thus the position is awarded in which a horse stands as he is placed by the judge who has placed him second highest from the top of the card.

Readings by the Scorer are taken in each case from the top of the set of three cards, progressing along each line from left to right, and then commencing again at the left of the next line. The first time a horses' number appears it is crossed out; the second time it appears it is circled; the third time it appears it is again crossed out. All the numbers on the set of three cards will therefore be crossed out or bear a circle. Then, once again, the reading is taken from the top left-hand side of the cards, in this case reading only the circled numbers, and these are in order of placement. Should two or three circled numbers appear on one line, thus indicating a tie, various methods of breaking the tie are employed. At the conclusion of the class the results are announced by the Announcer from lowest to highest.

All horses taking part in the competition must be placed in order of preference by all judges. In the event of a judge eliminating a horse during the judging of the competition he will place that horse last on his card and indicate this with an "E". Should the judge eliminate more than one horse during the judging of a competition he will place those horses joint last on his card indicating this with a bracket as well as an "E".

HI-LOW TABULATION

Method

- a) Cards are placed in this order: Call Judge, Second Judge, Third Judge.
- b) Work always from left to right and from top to bottom, starting with unconsidered numbers.
- c) Final placing can only be done on completion of tabulation.

HI-LOW TIE SITUATIONS

(a) TWO-WAY FALSE TIE

Two numbers are circled on the same line. Penalty points are counted and the number with the least penalty points wins.

(b) THREE-WAY FALSE TIE

Three numbers are circled on the same line. Penalty points are counted and the number with the least penalty points wins.

(c) TWO-WAY TRUE TIE

Two numbers are circled on the same line. Penalty points are equal. This is resolved by determining which number was placed higher than the other number by two of the three judges officiating. Score this way by awarding checkpoints () to the higher number in relation to the other.

(d) COMBINATION TIE (TRUE AND FALSE)

Three numbers are circled on one line. Two numbers are True-tied and one number is False-tied. This is easily resolved by penalty points and checkpoints () combined.

(e) THREE-WAY TRUE TIE

Three numbers are circled on the same line. Two of the numbers can be resolved by either penalty points or checkpoints () but there is a failure to resolve the third number. The cards are

returned to the Chief Steward who will ask the Call Judge for that competition to give his order of preference.

If a Steward notices at any time that a boot is improperly positioned on the horse's leg (e.g. a fetlock boot that is positioned entirely on the cannon bone between the fetlock joint and the hock) or if a Steward is of the opinion that a boot is excessively tight, the Steward is to instruct the athlete/groom to remove the boot and reposition it so that it fits properly and comfortably on the horse's leg.

[Note to Stewards: *It is normal for a horse's gait to be somewhat affected immediately after boots have been removed and re-placed.*]

If the athlete/groom refuses to reposition the boot, a yellow warning card will be issued.
Correct positioning (rounded part of the boot is placed on the inside of the fetlock joint)

Incorrect positioning

If a boot strap causes bleeding on the horse's leg the Chief Steward is to issue a yellow warning card to the athlete.

It is not allowed to place Velcro on the sides of boot straps that are in direct contact with the horse's legs

BOOTS FOR YOUNG HORSES

Ref. Art. 257.2.4

For all international Young Horse competitions (five*, six, seven and eight year old horses): All hind leg protections must have a maximum interior length of 16 cm; the width of the fastener must be at least 5cm.

* Competitions for five year old horses may only be held at the FEI World Breeding Championships for Young Horses; unless special authorization has been granted by the FEI.

The following criteria must be respected in relation to hind boots worn in the international Young Horses competitions:

- The inside of the protection must be smooth. Only non-elastic Velcro-type fasteners are permitted; no hooks, buckles, clips or other methods of attaching the fasteners may be used;
- The rounded rigid part of the protection must be placed around the inside of the fetlock;
- No additional elements may be used in conjunction with the protection.

5cm min width
16cm max. length

Note to Stewards: Hind boots for Young Horses that have an extra flap for protection should be allowed providing the flap is soft and is clearly intended for protection only.

NB: For the sake of clarity the interpretation of “the inside of the protection must be smooth” referenced in Art. 257.2.4 means it must be ‘flat’ with no pressure points of any kind. Sheepskin linings are allowed.

ARTICLE 257 SADDLERY

2.4. For all international Young Horses Competitions (five *, six, seven and eight year old Horses): All hind leg protections must have a maximum interior length of 16 centimeters; the width of the fastener must be at least five centimeters (refer to FEI Jumping Stewards’ Manual on the FEI website for diagram).

* NB: Competitions for five year old Horses may only be held at the FEI World Breeding Jumping Championships for Young Horses, unless special authorization has been granted by the FEI.

The following criteria must be respected in relation to hind boots worn in international Young Horses Competitions (see also the FEI Jumping Stewards Manual on the FEI website):
The inside of the protection must be smooth. Only non-elastic Velcro-type fasteners are permitted; no hooks, buckles, clips or other methods of attaching the fasteners may be used;
