HOEKOM HET JY DIE STOET BEGIN? / WHY DID YOU START THE STUD?

We started the stud as a family venture , strongly believing in the qualities of the SA Boerperd and wanting to contribute to the growth and development of the breed.

MET WATTER PERDE HET JY BEGIN? / WITH WHICH HORSES DID YOU START?

Our first Boerperd were four horses purchased from the Calista and Keeversfontein stud farms, mainly from the Lang-Carel line. We have slowly added and expanded to our current 16 horse stud. We plan to remain a relatively small stud, only breeding a select few mares every year.

VISIE & MISSIE / VISION & MISSION

Our vision is to breed low maintenance, competitive show- and sport horses with good temperament and conformation.

We plan to achieve this by very selective and targeted breeding and producing well rounded trained horses based on our customers' requirements.

TOEKOMSPLANNE / FUTURE PLANS

We will continue to upgrade our breeding stock and improve our training program and methods. We aim to start a traditional breeding line to compliment our current universal horses.
