HOEKOM HET JY DIE STOET BEGIN? / WHY DID YOU START THE STUD?

My daughter and I started competing S.A Boerperde almost 10 years ago and fell in love with the breed. After competing in many disciplines across the board on a variety of breeds, we were completely hooked on the S.A.S. We have successfully competed for other studs throughout the years and have purchased our own mares. The natural progression forward was to start a small stud breeding with our favourite genetics.

MET WATTER PERDE HET JY BEGIN? / WITH WHICH HORSES DID YOU START?

We started with a young gelding Calista Zuess at the time our stud was not registered.

VISIE & MISSIE / VISION & MISSION

Our vision is to breed top quality sport horses, to compete in most disciplines. Being a small stud our main focus is temperament and a good foundation in the early years. All our foals are handled and stabled from day one. Our motto HAPPY HEALTHY HORSES.

TOEKOMSPLANNE / FUTURE PLANS

We believe in young rider as the future. Savvy stud has a few young riders competing in SANESA and other disciplines on their own SABoerperde. we would like to introduce more young riders to our breed and promote the breed as much as possible. We are completely committed and passionate about our stud and the breed. Hoping to breed future champions and create ambassadors for our breed. Good foundation for young horses is imperative, creating a horse with a fantastic temperament for the future. Concentrating on taking the time to produce the horse slowly.

STOET AKTIWITEITE & BETROKKENHEID / STUD ACTIVITIES & INVOLVEMENT

We currently compete across many disciplines and our young riders compete in SANESA. We also own a trail riding facility whereby people hack out on most of our horses, ranging from beginners to advanced riders.
